Outreach Initiatives

Internship Program

WUST administers an ongoing internship program to assist members of the community in learning skills for radio employment. Interns are accepted from the educational institutions and the general community. Interns are given the chance to learn the world of radio broadcasting and have the opportunity to have hands on experience from the back office to the studio.

Job Enhancement / Mentoring Program

WUST provides the opportunity for our full-time office employees and part time studio employees to cross train for potential increase in employment level. This program will allow employees to learn and practice skills above their level of knowledge level to allow them to gain higher employment in the company, when or if that opportunity occurs.
